SUMMARY

Third-year Computer Engineering undergraduate with a strong focus on **AI/ML and full-stack development**. Built **Kairos**, an AI-powered cross-platform app leveraging **OCR, VLM, and LLM APIs** for real-time dietary analysis. **IBM-certified** across Machine Learning, Deep Learning, and Generative AI. Experienced with the full model pipeline from data preprocessing to deployment, and proficient in building scalable React/Node.js web applications.

TECHNICAL SKILLS

- **AI/ML:** Pytorch, Scikit-Learn, Groq API, Gemini API, Numpy, Pandas, Matplotlib, Seaborn
- **Languages:** Python, Javascript, C, C++, HTML, CSS, PHP
- **Web & Backend:** React.js, React Native, Node.js, Express.js, Flask, REST APIs, Expo
- **Databases:** MySQL, MongoDB, PostgreSQL
- **Tools:** Git, GitHub, Linux

PROJECTS

- Kairos- AI Dietary Assistant** | *React Native, Expo, TypeScript, SQLite, OCR, VLM, LLM API*[GitHub](#)

 - Developed an **AI-powered cross-platform mobile app** that scans restaurant menus using **OCR and Vision-Language Models (VLMs)**, providing personalized calorie and macro-nutrient recommendations based on users' dietary goals.
 - Integrated a **contextual LLM chat interface (via Gemini/Groq API)** for AI-driven dish recommendations, smart customization tips, and adaptive meal planning — reducing manual calorie lookup time by **~60%**.
 - Built **real-time multi-screen navigation** with Expo Camera, React Navigation, and **persistent SQLite storage** for seamless nutrition tracking across sessions.
- DocuMind-RAG Question Answering System** | *Python, FAISS, Groq API, Streamlit*[GitHub](#) | [Live Link](#)

 - Built an **end-to-end Retrieval-Augmented Generation (RAG) pipeline** that ingests PDF documents, chunks and embeds them using **Groq API**, and retrieves context-aware answers via **FAISS vector search**.
 - Deployed an interactive **Streamlit web interface** allowing users to upload documents and query them in natural language, achieving accurate grounded responses with source attribution.
 - Applied prompt engineering techniques to minimize hallucinations and improve factual accuracy across diverse document types.
- IEEE SIES GST Student Branch Website** | *React.js, Node.js, Express.js, MongoDB*[Live Link](#)

 - Designed and deployed the **official IEEE Student Branch website**, creating a centralized digital hub for all chapter activities; increased event visibility and **student engagement by 40%**.
 - Built a **modern, responsive UI with React.js** and managed the full solution lifecycle from conceptualization to college domain hosting.

CERTIFICATIONS

Data Analysis with Python IBM	Machine Learning with Python IBM
Python for Data Science, AI & Development IBM	Building Gen-Ai Application with Python IBM
Introduction to Deep Learning & Neural Network using Keras IBM	Full-Stack Web Engineering Selfmade Ninja Academy

EDUCATION

SIES Graduate School of Technology Bachelors of Engineering in Computer Engineering	Mumbai 2023 – 2027
SIES College of Arts, Science and Commerce Higher Secondary Certificate (HSC) – Science (Computer Science Specialization) (64.67%)	Mumbai 2021 – 2023
Little Angel’s High School Secondary School Certificate (SSC) (81.60%)	Mumbai 2021
